Summary

Full stack software developer with more than 5 years of experience. Passionate about clean code, code performance, componentization and new technologies and features.

Education

Student of Bachelor in Computer Science   **2016 - Current**
University of Caxias do Sul – *Caxias do Sul, Rio Grande do Sul, Brazi.*

Professional Experience

TOTVS, Caxias do Sul, Brazil   **April 2019 – Current**

Systems Analyst I | 2021 – Current

- Performance at Contracts Squad, where I have responsibilities for innovation and maintenance of programs related to the contract module (such as beneficiaries, contracts, company portal, among others). I also work on a monthly basis in the automated testing team, creating solutions so that other developers can use unit tests in an automated way in their daily lives. Usign: Typescript/Javascript, Progress, Oracle PLSQL, Java and .NET. Technologies: HTML5 and CSS. Frameworks: Angular, THF2, Portinari and PO-UI.

Full Stack Developer | 2019 – 2021

- Performance at Customer Service Squad, carrying out innovations and maintenance related to the programs that include the service module (medical audit, authorizer, maintenance of guides, among others). Using: Typescript/Javascript, Progress, Oracle PLSQL and Java.

CIGAM PRODALY, Caxias do Sul, Brazil   **May 2016 – April 2019**

Full Stack Developer | 2017 – 2019

- Magic programming solutions, script development, procedures, triggers, database sequences (Oracle and MSSQL), creating applications in C#: both for web development as well as internal applications, and working knowledge software for Gas Station Management.

Intern | 2016 – 2017

- Magic programming solutions, database script development (Oracle and MSSQL), acquired knowledge in database (Basic Operations and Joins), basic knowledge of the

functioning of software for Gas Station Management.

Technical Skills

- <u>Languages</u>: *(proficient)*: Typescript, Javascript, C#, Progress, HTML. *(familiar)*: Java, C, CSS, Python, Magic, Groovy.
- <u>Databases</u>: *(proficient)*: Oracle , MSSQL. *(familiar)*: SQLite, PostgreSQL.
